Foreword xi

Acknowledgments xv

Introduction: The HighScope Approach to Preschool Education 1

Origin of the HighScope Preschool Curriculum 2

The Central Principles of the HighScope Preschool Curriculum 3

  Active participatory learning 4
  Adult-child interaction 5
  Learning environment 5
  Daily routine 5
  Assessment 6

Evidence of Effectiveness 7

  Findings of the HighScope Perry Preschool Study 7
  Findings of the HighScope Preschool Curriculum Comparison Study 8
  Findings of the HighScope Training of Trainers Evaluation 9
  Findings from independent investigators 10
  Why the HighScope Preschool Curriculum works 11

Chapter 1. Active Participatory Learning: The Way Children Construct Knowledge 13

  Human Development as a Framework for Education 14
    Learning as developmental change 14
    Active participatory learning — A complex process 16
    Adults as supporters of active learners 20

  Key Developmental Indicators — A Framework for Understanding Active Learning 25
    What happens in an active learning setting 26
    What children do in the active learning setting 26
    What adults do in the active learning setting 37

  How adults and children interact in the active learning setting 46
  The effects of active learning 48

The Practical Ingredients of Active Learning 51

  Using the ingredients of active participatory learning 51
  Active participatory learning: The foundation of the HighScope Curriculum 53

Chapter 2. Adult-Child Interaction: Establishing a Supportive Climate 55

  Understanding Supportive Climates 56
    The child’s sense of self: Development through interaction 56
    Building blocks of human relationships 58
    Who is in control? Contrasting social climates for children 62
    The effects of a supportive climate 65

  Strategies for Creating Supportive Climates: Six Key Elements 67
    Sharing of control between adults and children 68
    Focusing on children’s strengths 70
    Forming authentic relationships with children 72
    Making a commitment to supporting children’s play 75
    Using encouragement instead of praise 78
    Adopting a problem-solving approach to social conflict 79

  Using the elements of support: Moving a group of children from place to place guided by the key elements of support 83
  How the elements of support relate to the rest of the curriculum 86
  How the elements of support relate to program quality 86
Chapter 3. Involving Families in Active Learning Settings  91

The Benefits of Family Involvement  92
The HighScope Framework for Family Involvement  94
  Family as a frame for understanding children  95
  Active learning in support of family involvement  96
  A supportive climate for family involvement  100
The effects of valuing families  102

Strategies for Supporting Family Involvement:
Four Key Elements  103
  Knowing yourself, and your family’s roots, beliefs, and attitudes  103
  Learning from children and families about their styles and traditions  104
  Creating positive relationships between yourself and others  110
  Anticipating excellence from each child  113
Using the elements of family support: Two examples  114
  The elements of family support and the rest of the curriculum  116

Chapter 4. Working in Teams: Adult Collaboration to Promote Active Learning  119

Understanding Teamwork  120
  Teamwork: An interactive process  120
  The effects of teamwork  122
  Forming the team  123

Strategies for Daily Teamwork: Five Key Elements  125
  Establishing supportive relationships among adults  126
  Gathering accurate information about children  129
  Making group decisions about children: Interpreting observations and planning what to do next  131
  Planning lessons: Using the elements of the curriculum to plan the program day  134
  Making group decisions about teamwork  138
Using the elements of daily teamwork:
  Involving a new team member  142
  Staff support and supervision  143
  Looking ahead: The relationship of adult teamwork to the rest of the HighScope Curriculum  148

Chapter 5. Child and Program Assessment  151

Child Assessment  153
  Authentic assessment of children  153
  The Preschool Child Observation Record (COR)  155
Program Assessment  160
  Valid program quality assessment  160
  The Preschool Program Quality Assessment (PQA)  162

Chapter 6. The Learning Environment: Arranging and Equipping Spaces for Active Learners  171

Ideas That Shape Settings for Active Learning  172
  Environments for children and the active learning ingredients  172
  General guidelines for organizing space and materials  174
  Modifying the learning environment to accommodate children with special needs  187
  The effects of arranging and equipping space according to HighScope guidelines  190

Strategies for Arranging Active Learning Settings  190
  Arranging and equipping specific interest areas  190
  The relationship of arranging and equipping space to the rest of the curriculum  221
Chapter 7. The HighScope Daily Routine: A Framework for Active Learning 223

Understanding the Daily Routine 224
- The daily routine supports child initiative 224
- The daily routine provides a social framework 225
- The daily routine provides a flexible structure 227
- The daily routine supports curriculum values 227

General Guidelines for Organizing a Daily Routine 228
- A variety of active learning periods provides children with a range of experiences and interactions 228
- Active learning periods occur in a reasonable, predictable sequence that meets the particular needs of the setting 236
- Experiences take place in an appropriate physical setting 239
- Each period involves children in active learning experiences within a supportive climate 239
- The daily routine provides a range of learning experiences 240
- The daily routine flows smoothly from one interesting experience to the next 241

Chapter 8. The HighScope Plan-Do-Review Process 243

Understanding Planning Time 244
- What is planning? 245
- Why is planning important? 249
- What children do as they plan 251

How Adults Support Children’s Planning 258
- Adults plan with children in an intimate setting 259
- Adults provide materials and experiences to maintain children’s interest at planning time 260
- Adults converse with individual children about their plans 261
- Adults anticipate changes in children’s planning over time 271

Understanding Work Time 275
- What is work time and why is it important? 275
- What children do at work time 278

How Adults Support Children at Work Time 282
- Adults scan the interest areas to find out what children are doing 282
- Adults choose children to observe, gain children’s perspectives, and form on-the-spot interaction plans 285
- Adults offer children comfort and contact 286
- Adults participate in children’s play 289
- Adults converse with children 293
- Adults encourage children’s problem solving 300
- Adults bring work time to an end 304

Understanding Recall Time 307
- What is recall and why is it important? 307
- What children do as they recall 310

How Adults Support Children at Recall Time 313
- Adults recall with children in a calm, cozy setting 315
- Adults provide materials and experiences to maintain children’s interest at recall time 316
- Adults converse with children about their work-time experiences 316
- Adults anticipate changes in the way children recall over time 322

Chapter 9. Group Times, Outside Times, Transitions 325

Special Features of Group Times 326
Scaffolding Children’s Learning at Group Times 327

Understanding Small-Group Time 328
- What is small-group time? 331
- Why is small-group time important? 333
- Where small groups meet 338
- What children do at small-group time 338

How Adults Support Children at Small-Group Time 341
Understanding Other Group Times 387
- Meal- and snacktime 387
- Greeting and departure time 387
- Message board 388

Chapter 10. Introduction to HighScope’s Curriculum Content 391
KDIs — Guideposts for Child Development 393
The Significance of the KDIs 397
- KDIs focus adults’ observations and interpretations of children’s actions 397
- KDIs serve as a cross-cultural reference for observing and interpreting children’s actions 397
- KDIs help adults maintain reasonable expectations for children 397
- KDIs answer questions about the legitimacy of children’s play 398
- KDIs guide decisions about materials and the daily routine 398
- KDIs enable adults to recognize and support children’s emerging capacities 399

Using the KDIs to Support Teaching and Learning 399
- Use the KDIs as a basis for assessing the materials available to children 399
- Use the content areas and KDIs to organize and interpret observations of children 401
- Use KDI-based child observations as a basis for daily team planning 404
- Use the KDIs as a guide to planning small-group and large-group times 404
- Use the content areas and KDIs to guide on-the-spot interactions with children 405
- Use the curriculum-based planning and assessment tool, the Preschool Child Observation Record 405
